ProGlobe – Digital Project-Based Learning: Promoting the Global Exchange of Ideas on Sustainable Goals, Practices and Cultural Diversity aims to encourage communication among all four countries to raise awareness on the impact of environmental and social issues. ProGlobe offers students the opportunity to work virtually in a global context and to understand issues from different cultural perspectives; working against misconceptions and generalizations. This year, students evaluate, discuss and reflect on the impacts of the COVID-19 pandemic has had on their country and the world.
